

EU Type Examination Certificate

Date: 2020/04/09

n. **289201502/OE**

Validity:
2025/04/08

This Certificate cancels the previous one nr. 289142706/OE dated 2014/06/30

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: **SAS-TEC GmbH**
(Responsible of the PPE) Volmarstraße 5, 71706 Markgröningen – GERMANY

Type of PPE: **Back protector – Type FB** (full back)

Category of PPE: **II** : "medium" risks.
This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.

Model **"SCL-(X)* 19"**
(2 colourways)

Description: Back protector declared entirely made of **YELLOW** or **BLACK** partially perforated viscoelastic PU foam (PUR). There is no fastening system because the protectors are to be inserted in special pockets of protective clothing.

SCL-M 19
Col. YELLOW
without Velcro pads

NOTE: sizes M/L, L and XL are available either with or without Velcro pads (PES/PA) on the outside.

(*): the article code varies depending on the commercial size (**X = S, M, M/L, L, XL**).

Technical Standard: **EN 1621-2:2014** Motorcyclists' protective clothing against mechanical impact – Part 2: Motorcyclists' back protectors – Requirements and test methods.

Intended use: preventive use against mechanical impacts during motorcycling and biking/downhill activities. This back protector must always be properly inserted in its garment and used with all other suitable P.P.E. and sports clothing in order to ensure the most complete protection.

Size range:

Commercial size	Size in accordance with EN 1621-2:2014 (waist – to – shoulder length range min.-max. in cm)
S	29-32
M	32-36
M/L	36-41
L	41-45
XL	45-50

Technical File: **DC-12010/E**

EU Type Examination Certificate

Date: 2020/04/09

n. **289201502/OE**

Validity:
2025/04/08

Test report: **RCT n° 3931028/E**

Protective functions: to reduce the severity of injuries caused by impacts.
The protectors give a limited protection against mechanical impact in case of accidents.

Typical test results obtained (see also test report): to reduce the severity of traumas caused by impacts. The protectors provide limited protection against mechanical impact in case of falls.
Method: "kerbstone" at 50J.

Mandatory tests: impact test performed at standard ambient conditions and after hydrolytic treatment (wet conditions) = **level 2**.

The **overall protective level** is therefore: **level 2**.

NOTE: the reference Standard EN 1621-2 provides 2 performance levels and level 2 is the one offering higher performances.

Marking: Printed on the protector and displaying the following information:

- **CE marking;**
- name and address of the Manufacturer;
- item designation;
- pictogram to indicate the motorcycle use, type of protector (FB) and overall performance level achieved during laboratory tests;
- nr. and year of the reference Standard;
- pictogram to indicate the W-S length (expressed in cm);
- date of production (with clock indicator), indication of the correct positioning ("TOP").
