

KTM 790/890/1290 ADV & Husqvarna Norden 901 Rangers Wild accessory mounting instructions

Included in the kit:

Bushings x4

Screws x4

Looped handles x2

(Step 1)
Remove the original (OEM) luggage rack and detach the handles.

(Step 2) Place the RW base on the motorcycle and ensure the distance from the four rear bolts is correct.

(Step 3) Insert the metal bushings, placing the textile handles loops around them.

(Step 4) Place the original luggage rack over the bushings and secure it with the screws included in the kit.

(Step 5) This will preserve the original appearance, but the rear rack will be raised a few centimeters.

(Step 6) Pass the rear straps under the rack and through the hole as shown in the image, tighten securely.
